Progress Of The C. N. R.

The most encouraging reading matter to be laid before the people of Canada for many years was that setting forth the complete operating results of the Canadian National Railways for the year 1925, supplemented a few weeks later by the statement made to Parliament by Hon. C. A. Dunning, the new Minister of Railways. The Canadian National Railways, and its predecessors in the various separate lines, which now constitute the National system, have for so long been a financial burden on the Canadian taxpayer, that it is a distinct relief to read the really splendid showing of the system last year, and the further betterments already reported for 1926.

The net earnings of the Canadian National last year were nearly double those of 1924, being \$2,561,141 as compared with \$1,274,241. This substantial betterment was brought about in two ways, by an increase of nearly ten million dollars in operating revenues, and a decrease of over five and one-half millions in operating expenses. Net earnings in 1925 were twelve times what they were in 1922.

Supplementing this annual statement for 1925, Mr. Dunning was also to inform Parliament that for the first four months of 1926, net earnings of the Canadian National amounted to \$9,688,217, a record for any similar period in the history of the management system, and the Minister was therefore to urge the happy position of being able to pay a reasonably good wage to the men and women of the system, and to pay the interest charges due on the bonds.

That is to say, if present conditions are maintained, and the promise of the 1926 crop realized, the Canadian people this year will not be called upon to make good any deficit out of taxes.

For the first time, too, the Canadian Government ship, now operated by the Canadian National management, showed an operating profit during the first four months of 1926. The National Railways are carrying cargoes to the ships, and the ships are bringing traffic to the railway.

Sometimes operating betterments are shown by cutting down expenditures. In the provision of needed equipment and in maintaining a railway fully up to standard. In the case of the Canadian National, however, it is satisfactory to learn that this is not the case. On the contrary, the physical condition of the system has been steadily improved and better, not less satisfactory, service provided.

As pointed out in a recent article, it was this improvement in Canadian National finances which was an important factor in enabling the Finance Minister in his recent budget to lower the Income Tax, return to two-cent post-age, wipe out the receipt tax, and reduce the Customs duties on certain types of automobiles. Thus, not indirectly, but directly and immediately the people of Canada enjoy a measure of tax relief because of the success being achieved by Sir Henry Thornton and his co-workers in the management of the Canadian National.

If the expectations of Sir Henry and Mr. Dunning are realized this year—and present indications are that they will be—then further (taxation relief may be looked for, or, as an alternative, a start made in the direction of reducing the enormous war debt which the Dominion now has to carry. Either step, of course, would mean a further reduction in the financial burden and obligations of the Canadian people.

Finally, it is a matter of particular national gratification that this steady and rapid improvement in the Canadian National has been brought about without doing any injury whatever to Canada's other great national railway, the Canadian Pacific. The C.P.R. also reported a very successful year in 1925, far better than was expected during the earlier months of that year, and thus far in 1926 it continues to further improve and strengthen its position. Much as Canadians desire to see the Canadian National prosper and more than pay its way, they are equally desirous of seeing the C.P.R. grow and prosper. There is no wish to advance the welfare of one system at the expense of the other. Both are national systems in the true meaning of the term, and both can and are rendering services of immense value to the Dominion.

With increasing immigration, a general renewal in all lines of industry and commerce, and given a good crop throughout the country this year, the future of Canada's railways is encouraging.

Big Fair Opened

Women Workers in Britain

Sesqui-Centennial Exposition in Philadelphia Is Now Underway
Philadelphia's Sesqui-Centennial Exposition, celebrating the 150th anniversary of the signing of the Declaration of Independence, now under way May 21st, and will remain open until November.

There was a parade three miles long; there were 150 guns, and some 10,000 women engaged in mending and sewing; addresses by Secretary of State Kellogg, Secretary of Commerce Hoover and Mayor Freshford Kendrick.

Gaston, who classified fingerprints to all in identifying criminals, stated that exact duplication of prints would occur only once in 65 billion cases.

Children Cry for

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind, Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher* on the wrapper. *Dr. J. C. Fletcher* is a physician everywhere recommended.

Enterprising London Tailor

Guarantees Suits Will Not Be Duplicated in Cut Or Material Since neither the bright colored suits nor the Oxford trousers have been adopted by the really smart Londoners, an enterprising tailor has decided to boom a new fashion for the coming season. It is announced that he has made special arrangements with a cloth weaver which will allow him to supply suitings to young men which will not only be exclusive in cut, but which will carry the guarantee that only one suit will be made from that particular material. It will be more exclusive than any "Paris model" for women. For some time the most fashionable tailors have regarded it as an unwritten law that not more than ten suits may be made from any one material, but the exclusive suit is the outstanding development. The rights of the first exclusive suit will be put up for auction—London Dispatch to Chicago News.

Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liment Gets Such Universal Satisfaction As

NERVINE

It is the great penetrating power of Nerveine that makes it so efficient in the treatment of all rheumatic inflammations. It rubs into the joints through the skin, penetrates quickly, warms, comforts relief at once. No liniment compares in this relieving power with Nerveine. For the minor rheumatic pains it is the best remedy. Nerveine should always be kept on the shelf. Use it for Rheumatism, Lumbago, Neuritis, and Colds. 50 cents at all druggists.

Money in Potatoes

Owing to the shortage of potatoes in Canada and the United States, farmers in the Salt Sea, Maine district have been marketing their potato crop at good prices. Recently a farmer in the township of Laid sold \$1,000 worth of potatoes at \$2.50 per bag.

WEAK AND NERVOUS

A Condition Always Due to Thin, Watery Blood

This blood and weak nerves generally are found together. Red blood people seldom complain of nervousness or indigestion. The blood feeds the nerves and keeps them toned up. If the blood is thin and weak it falls in this important function and nervousness and indigestion follow. In case will interest those who need Dr. Williams' Pink Pills for Pale People. Dr. Veno, Union Square, N.Y., says: "With a feeling of gratitude I write to tell you what I owe to your Pink Pills for Pale People. I had become badly run down and nervous, and I felt that I could not do my housework. I got a few bottles of them and soon I seemed completely restored. The least noise would startle me and I was unable to nervous headache. I was still, I could not sleep at night. Perhaps I ought not to say more, but I then lie awake for the rest of the night. I had reached a state when I felt that I would lose my mind. Up to the time I decided to take Dr. Williams' Pink Pills for Pale People, I had taken seemed to do me any good. I got a few bottles of them and soon there was no doubt they were the medicine to help me. As I confirmed the use of the pills I gradually grew stronger, my appetite and sleep improved, my nerves were calmed, and I was as strong as a woman could wish to be. I hope some other weak, nervous person will be benefited by my experience."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50c a box from "The Dr. Williams' Medicine Co., Brockville, Ont."

Alberta Oil Boom

Nearly Fifty Wells to Be Drilled in Turner Valley Field

Oil field operations in Southern Alberta continue at a steady pace and a recent survey of the industry shows that nearly fifty wells are drilling or about to be started this year in the Turner Valley field alone. The E. J. Milly Exploration Co. of California, is planning to drill several wells in the many Island field near Medicine Hat. It is also stated, although unconfirmed, that the Dutch Shell Oil Company will operate the Alberta field in search of oil.

Husband (irritably)—"Can't you remember where I left my pipe?" Wife.—"No, dear. Husband—Bless me, that just shows the forgetfulness of women."

Dog—"What kind of a dog is Jones?"

Long—"I thought he was an eye doctor till I got his bill; then I found he was a skin specialist."

AFTER EVERY MEAL

That delicious flavor of fresh mint gives a new thrill to every bite. Wrigley's is good and good for you.

That delicious flavor of fresh mint gives a new thrill to every bite. Wrigley's is good and good for you.

Makes Living From Unusual Profession

Woman Supplies Catchy Names For Homes, Boats and Many Commercial Products

Have you some unusual little gift of talent, some whimsical little aptitude or individual trick of turning out originalities? Use it all it shines! It may bring you happiness and friends, fame and fortune! even though it may not be easy to classify your ability or find a title for it.

"Nomenclature" is a profession of which one woman is believed to be the sole representative. Miss Laura Lee Dodd, Elizabeth, New Jersey, has for twenty years made a business of the art of supplying attractive names—artistically appropriate, or cleverly "catchy"—for houses, boats and products of commercial manufacture. Some of the names Miss Rogers suggested, or invented, for prepared cereals and other foodstuffs have become known throughout the world.

Find Rare Stone

Red Diamond Cut Up At Kimberley Mines

A red diamond of considerable value has been found on the altavira ridge at Kimberley, South Africa. This species of stone is very rare, and is likely to bring anything from \$600 to \$750 a carat.

The cutting of the stone was placed in the hands of a local firm, and the rough stone was cut into a brilliant gem. The gem is of a reddish color, and is believed to be of some value.

The gem is of a reddish color, and is believed to be of some value. The gem is of a reddish color, and is believed to be of some value.

Writing Off the Debt

Giving the Canadian National a Chance To Pay Profits On Its Real Value

If the Canadian National can be brought to the point of paying interest to the bondholders out of its earnings, there is much to be said for the suggestion that the government should write off at least some of the huge debt contained in its own account against the railways. It is true that this would be literally a "writing off the books" of the debt, but it would be a bookkeeping. The debt would remain. The account would be transferred to the national debt.

But the moral effect would be salutary, and doubtless it would be reflected in a greater buoyancy of that industry which vital psychology of business which counts for so much now in the material prosperity of the nation.

Mr. Dunning says it is questionable if any railway management "could make good the fantastic burdens which overwhelmed the former owners." That is the real point at issue.

It is not fair to charge the railways with debts which are really the heritage of a freented financial. It would be better business to transfer all the water from the National; to revalue it on a physical basis; to give it a chance to pay profits on its real value as a going concern, and to charge the water to those other "liabilities of calamity," such as war, which have to be paid, but which need not and should not be hung as a millstone on the neck of any single industry.—Vancouver Province.

His Back Has Not Bothered Him Since

Why Mr. Marchbank Knows Dodd's Kidney Pills Are Good

New Brunswick man is enthusiastic over the remedy that brought him relief—Dodd's Kidney Pills.

Sussex, N.B.—(Special).—"My back has been bothering me for years, and I have tried many remedies, but they did me no good. I took about six to ten boxes of your Dodd's Kidney Pills, and my back has not bothered me for over two years now. You may publish this if you wish."

This statement was sent to us by Mr. H. J. Marchbank, a well-known resident of this place.

Mr. Marchbank's lame back was caused by sick kidneys. That is why he got such prompt and permanent relief from Dodd's Kidney Pills.

It is directly on the kidneys strengthening them and enabling them to do their full work of straining all the impurities out of the blood.

Impurities in the blood are the seeds of disease. Dodd's Kidney Pills make health by removing the seeds of disease.

Stage Historic Pageant

Edmonton Exhibition to Have a Novel Feature in the Middle for Queen's Birthday

Hon. Frank Oliver will open Edmonton exhibition this year, July 12. The board of management felt that it was peculiarly fitting that this day should fall to Mr. Oliver in view of the fact that this year marks the 21st anniversary of the creating of the province of Alberta with the territory of which he had so much to do.

The Old-Timers' Association, 800 strong, is taking active interest in the historic parade, which is the exhibition's method of marking the anniversary and has moved the original building of the Bulletin, Edmonton's first paper, to a place beside the club house on the exhibition grounds. The pageant will be officially known as "The Coming of Age," and will have 15 episodes.

British Housewives Form Union In the opinion of Mrs. C. P. Peel it is absurd that the latest profession for women—housewifery—is entirely without any union. Therefore, the British Housewives' Association, of which she is the chairman, has been formed with the purpose of urging co-operation among women in their domestic service and cleaner methods of handling food.

Give Him the Gas "Staten Jones, 'tis takin' up a collection 'fo' de beanti of our worthy parish," exclaimed one of the breakers. "You know, he's leavin' us 'fo' to take a chuck down in Mobile, an' we thought we'd get together and give him a little momentum," said the Churchman.

Sir Walter Raleigh spread his cloak across the puddle for Queen Elizabeth. "Tread on my majesty," he said. "You are in danger of getting wet."

"You're an old man," retorted Elizabeth.—Boston Transcript.

Life's journey is no tromeau that a man is out of breath when he reaches the end of it.

Minard's Liniment for backache

CANCER

Great Success Of CANTASSIUM TREATMENT

A well-known London surgeon and recognized authority on Cancer has created a great public interest in the discovery that Cancer is not a disease, but a condition which causes the cells to break down and die.

In order that every one may learn The Real Cause of Cancer a remarkable book has been specially written.

This book will be sent free to patients of any one who is in receipt of a letter from a meeting of "THE CANCER SOCIETY."

The following is a list of the authors:

1. The Limitations of Surgery: 2. Home Dressing of Cancer Operations: 3. The Cancer Cure: 4. The Cancer Cure: 5. The Cancer Cure: 6. The Cancer Cure: 7. The Cancer Cure: 8. The Cancer Cure: 9. Owing To Increase In Population World May Soon Be Facing A Very Serious Food Shortage

Soy beans, peanuts and human excrement may rank among the world's most important sources of food and the consumption of fish will increase tremendously in the future, according to Dr. Samuel C. Prescott, head of the department of biology at Massachusetts Institute of Technology.

Speaking on "The World's Food Supply—Its Sources and Preservation," Dr. Prescott revealed that natural scientists, looking 100 years into the future, are already searching the earth for new sources of food and seeking means of conserving the known sources to avert a shortage in the next century.

It is estimated, he said, that the United States with a population of approximately 110,000,000, now produces only enough food to feed a population of about 10,000,000. The fact that the world's population has doubled in 60 years, he pointed out, is an indication of the importance of finding new ways of finding new sources of food and saving the present supply more effectively.

The first great reinforcement in the world's food supply will come in meat, Dr. Prescott declared, in forecasting that the present generation may live to see a great proportion of its meat coming from the jungles of the Arctic and the countries of the tropics, where the goat and some 1200 of cattle can be raised.

Land in the temperate zone now used for cattle raising will in the future be given over to intensive agriculture for several purposes. The production of food and water supply will permit. Corn will probably be more extensively used as human food in the future, and additional land will be made of grasses now often scorched, he said. Already a palatable herb is being made from bananas, which have practically the same nutritive value as potatoes, and such food may find use in connection with cereals in supplying carbohydrates, according to Dr. Prescott.

Advantages Of Egg Grading

Results in Better Demand and in Higher Prices

The advantages of egg grading are becoming more apparent every day and it is resulting in rapidly increased per capita consumption. According to officers of the Dominion live stock branch this important consumption has amounted to over ten dozen eggs per person in the last five years, and during that period prices have been more uniform and more profitable to producers than ever before. The great deterrent in the way of increased production has been that the hen that has been the best has been the one that has been the best was no criterion of what the next would be. Grading has resulted in a definite standard, thereby increasing the demand and maintaining the prices.

Likes Canadian Cattle

Shipment of Steers Pleases a Former Opponent of Cattle Trade in Britain

Col. H. A. Mullins (Conservative, Marquette) said in the House of Commons that he had received a letter from Lord Hildesley, under secretary of state for agriculture in the British Government, stating that he had received two Canadian steers and was very much pleased with them. Lord Hildesley was formerly an enemy of the cattle trade.

Colonel Mullins asked if anything was being done to facilitate the transportation of Canadian cattle.

Mr. Motherwell said that everything possible was being done. New plans were now afoot and later developments might be expected.

For Farming in Manitoba

For farming has been making considerable progress in the Brandon district during the past couple of years. Two large ranches are now located quite close to Brandon, in which a large sum of money has been invested. A syndicate has about 17 miles of silver black fives, while a pool has about 17 miles of the same kind of animals on a newly established ranch.

Big Oil Production

With a single well producing oil of exceptionally high quality at a rate of 11,000 barrels a year, the value of the oil resources of Southern Alberta needs about to be established. This well is the largest producing well in Canada.

A micro-micro-second, a millionth of a millionth of a second, now is measured by a new invention.

W. N. U. 1832

Manitoba Farm Boys' Camp

Party of Ninety Boys From Rural Manitoba to Attend Brandon Fair

Arrangements are well under way to entertain at the Provincial Exhibition, Brandon, a party of ninety boys from all parts of rural Manitoba. Teams composed of three boys, ranging from thirteen to sixteen years of age, are representing their respective districts, at the third annual Farm Boys' Camp, which is now one of the leading features at the provincial exhibition.

This year the camp will open the evening of Tuesday, June 29th, and will continue until Friday evening. While in camp the boys will be the guests of the exhibition board.

The livestock judging competition, which is a feature of the camp, will commence Wednesday morning. Classes of horses, beef and dairy cattle, sheep and swine, will be judged by the boys.

The McKelvey Cup, which is competed for annually goes to the team scoring the highest. Good models donated by the Manitoba department of agriculture will be awarded to each member of the winning team, silver medals to the second highest team. Liberal cash prizes are offered to those scoring highest in each class of stock. Mr. James A. Richardson, of the Winnipeg Grain Exchange, has donated a handsome gold watch for the boy with the highest aggregate score and a silver watch to the second highest aggregate.

In addition to the judging competition, an interesting programme is being arranged. This will include an evening on the grandstand, an opportunity of visiting all departments of the exhibition, a field to the Dominion experimental farm and points in and around Brandon.

Entries have been received from some twenty-five points throughout the province. Some of the new points entering a team for the first time include Green Lake, Swan River, Griswold, Oakville, Chatter, Glenbrook, Lorne, Morris and Neepawa.

Egg-Laying Contests

Improvement Brought About By Better Selection of Individual Birds

The Canadian national egg-laying contest has now been in operation for six years. In a survey of the work in its latest report, the Dominion poultry inspection states that the average production in the last year was 122.5 eggs per hen as compared with 127.5 eggs in the 1919-20 season. This marked improvement was a large degree brought about by better selection of individual birds used in the contest, choosing poultry of proper age and development, advanced methods of breeding, and improved control management. Production gains in the contest show that the average bird brings a net income of \$2.50, which is a fairly good profit.

Saskatchewan Egg Pool

The new Saskatchewan Egg Pool within one week shipped from the Saskatchewan seven carloads of eggs to Montreal and eastern points. As many as three hundred eggs are being received daily and the station's daily total exceeds the combined daily receipts of all other provincial branches.

Profitable Lamb Feeding

Illinois Man's Method For Preparing Stock For Market

"Drying right and selling to advantage are only half the battle in profitable lamb feeding," F. B. Lloyd, of St. Marys, Ill., says. He follows 600 lambs a year on his 25-acre farm.

"For the first sixty days it costs little to put on ten pounds of gain per head. The lambs have the run of cornfield, meadow, pasture and stubble, picking up feed which otherwise would go to waste. At about that time a handful of barley and a little clover or alfalfa hay. If the rustling is good the lambs don't care for much other feed.

After sixty days I shut them up and feed barley and hay. During the last six weeks I feed a little corn. Usually they put the market if they have had half a start while on rough feed.

As a rule I keep lambs four to five months, depending upon the market. By this time a 55-pound feeder will weigh about 80 pounds, the size liked best by buyers. If the market goes to selling up during the feeding period because of the first cheap ten pounds, I try to make a discount, selling at the original price, or even a little less, and still be ahead."

Adds To Land Values

Alberta May Tax Farms Past Which

The Alberta Government has suggested a tax on lands past which telephones wires are strung, and there has been quite an outcry against the proposal. Why, says one, should a farmer pay for something which he does not want in order to help another man secure a phone? But the phone users point out that often the main line may pass many unused farms which are held for speculative purposes and as the running of the telephone past these farms certainly adds to their value, why should they not pay for the added value? It is significant that the United Farmers of Alberta have opposed their imprudent tax proposal, and it will probably become law.

Excellent Ranching District

Shipment of Cattle Sent 600 Miles North of Edmonton

A large number of cattle were sent this spring to the Port Fitzgerald country, 600 miles north of Edmonton. They were taken by train to McMurray and then by boat to their destination. Although the Flin Flon district is far north, on the limit of Alberta's boundary, it contains an excellent farming and ranching area and has been proved suitable for the raising of livestock. This will be Canada's farthest north ranching district.

Alberta Bands For Paving Purposes

Definite arrangements for testing the McMurray bands for paving purposes have again been entered into between the Edmonton city authorities and Thomas Trover, owner of extensive holdings in the north. Similar experiments to those made last summer will again be performed.

Bad news and soft-boiled eggs should be broken gently.

Points The Way To A Stronger National Sentiment And A Stronger Canadianism

Lights Farm Tracks

Pittsburg Farmers Cultivate Crops To Music of Radio

Farmers and countrymen in the southern border of Pennsylvania are cultivating their crops to the music of radio. No longer is there a question of keeping the hired man in the fields till sundown—not when he can play his horn in time to his favorite strains. No longer do the boys run off to the village when the baseball scores and music by the band is carried to them by the loud speaker erected in the farmyard.

In Western Pennsylvania the sun is still high in the sky and it is but mid-afternoon on the farm when the eastern farmers begin their programmes. Why should the music be lost? The farmsteads have the receiving set on the wheelbarrow, erect a temporary aerial, drive an iron pin in the soil, ploughed earth for a ground wave station.

The crane for outdoor radio reception has replaced the cabinet set, which is usually transferred from the house to the wheelbarrow, express wagon and dog carts and carried to the fields and gardens. Music keeps the boys at work, which they are accustomed during the winter.

Canada Could Extend Market

British Honduras and Other Southern Countries Would Buy Canadian

Products

Canadian manufacturers are losing much by not paying more attention to their Central and South American trade. In the opinion of his excellency Major J. A. Burton, C.M.G., governor of British Honduras, who spent a day at the Fort Cary Hotel, Winnipeg, recently. His excellency called attention to the fact that Canada exports very little outside of wheat products to the countries on the equator, and stated that the United States and Germany are selling goods there which will not be sent from Canada. People in these countries, and in British Honduras especially, would buy Canadian goods if they were offered in the right way, he said, but so far Canadian merchants have not gone to the trouble to present their goods in a manner which appeals. While 98 per cent of the food used in British Honduras is from the Canadian west, there is an appalling scarcity of other goods, he said.

Real Estate Values

The United States paid \$25 an acre for the Virgin Islands, \$25.50 an acre for the Canal Zone, 25 cents for the Philippines and 2 cents for Alaska—Brazilian independent.

Brazil uses convict labor in much of its road construction.

Brazil occupies an area equal to that of Europe.

St. James Atkins is one of Canada's

constructive speakers, and his address to the members of the Montreal Junior Bar is a notable and noteworthy characteristic. It points the way to a stronger national sentiment and therefore a stronger Canadianism. There is no pursuit and no action that does not require united operation, and national cooperation in Canada can be effected only through the different sections and different classes striving to understand one another's conditions of life and work, and trying to reach as far as possible one another's point of view. Sir James Atkins' speech displays a disposition to direct every possible means to this end. He finds in the other provinces of Quebec and Ontario indications of spite, violence and hope that as they are realized will enhance the greatness, progress and prosperity of the Dominion, and kindred feelings, he tells are being firmly fixed in the minds of young Canadians in Western Canada. First of all, he says, we must have our own products, but there must be a willingness to comprehend all the other provinces and bring them within the scope of liberal consideration. As Sir James put it: "Love your province first and endeavor to make it the best. Try to see Canada as a whole." In this way Canada may be made strong as a nation, enabled to take advantage of her opportunities and become a leader in the economic matters known as the British Empire.

To this end, something more than the natural growth of population is needed in a country of vast extent. The natural law of increase must be aided by immigration from abroad.

This was advocated by Sir James with a view to the people who are allowed to come into the Dominion from foreign lands shall be able to do so. He said that it is to be deplored Canada's tendency to become a "population exporting country," and stressed the need of keeping young Canadians at home in order to realize fully the great opportunities of the country. The reality of the fact that Canada is a country of magnet to the south continues to attract to it many of Canada's enterprising and adventurous citizens and he thought it would be well to simplify the costs of public administration, bring about a reduction of taxation and enhance trade, and thereby reduce unemployment, the irreducible minimum. But this is a political phase of the question which Sir James Atkins of course did not care to open or suggest. He confined himself strictly to national aspects, pointing to Canada as a quarter of the world in which it is inevitable that there will be certain to bring about prosperity on a gigantic scale. Canada has a great national destiny and the spirit that pervades it is the spirit of Sir James Atkins is calculated to encourage all who are anxious to challenge that destiny—Montreal Gazette.

Would Teach Housewives

Advocates Expert to Educate House-keepers Re Points On Beef

Several speakers at the annual meeting of the Eastern Canada Livestock Union held in Toronto emphasized the need for a "better beef" campaign throughout the Dominion. Equal in importance with the necessity of improving the quality of beef was the necessity for educating the consumer to an appreciation of what good beef really means.

W. H. Porter, of London, Ont., advocated the employment by the federal livestock branch of an expert who would be available to conduct practical work among consumers, to give practical demonstrations of the difference between good cuts and poor ones. Canadian housewives, as a general thing, did not know good beef declared Mr. Porter.

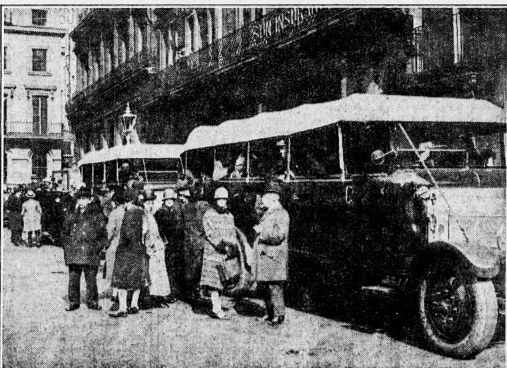

Saving Nitrogen Fertilizer

New Product May Soon Be Placed On Market

Each year 2,500 tons of nitrogen are lost down the sewers of the United States. The first step in the recovery for the United States is the plant food has been taken through the erection of an \$5,000,000 sewage disposal plant at Milwaukee, Wisconsin. The plant will collect sewage, pump it into Milwaukee pipe to accomplish the double purpose of purifying the water supply and of placing on the market a new organic fertilizer.

Men resemble whales. They no longer get to the top than they begin to blow.

Pleasure Tours Instead of Train Trips During English Strike

Not even a general strike involving some four million workers interfered with Canada's Pacific Railway transportation in England. The company held huge car-barns in readiness to convey passengers from inland cities to seaports where the vessels they wished to board were lying. About 300 passengers for the Canadian Pacific Hotel Montreal leaving the company's offices, Trafalgar Square, London, for Liverpool, on Thursday, May 6. The motor car on regular train time schedules, giving the travellers ample time to make the usual arrangements. All of the passengers were leaving for Liverpool through England well worth while.

At its best in May, old England presents beautiful rolling downs, long shady roads and charming villages, affording a two hundred mile pleasure tour instead of a mere train run. In order to carry out all obligations fully to patrons the London Express Company had a complete fleet of motor vans equipped to deliver and receive passengers during the strike.

At its best in May, old England presents beautiful rolling downs, long shady roads and charming villages, affording a two hundred mile pleasure tour instead of a mere train run. In order to carry out all obligations fully to patrons the London Express Company had a complete fleet of motor vans equipped to deliver and receive passengers during the strike.

CRISIS IN EGYPT IS THE CAUSE OF GRAVE CONCERN

London.—With a ministerial crisis pending in Egypt, and having in the mind the acquittal of the alleged assassin of Sir A. St. John, British officials in the Egyptian army in 1924, Great Britain has informed the Egyptian Government that it reserves "complete liberty of action."

The British Government is backing up this notification with the dispatch to Alexandria of a warship from Malta, denouncing this, however, as merely a precautionary measure for the protection of British and foreign interests.

The most important question at issue in the Egyptian premiership, which recent reports asserted was likely to be taken over by Zagloul Pasha, leader of the Nationalist party, whose party in the late election carried the majority of the seats in the assembly.

Zagloul Pasha is not acceptable to the British Government, but the tension has been relieved by the fact that Zagloul has, willingly or unwillingly, withdrawn his candidacy and that the new premier is likely to be Adly Yeghla Pasha, constitutional Liberal.

The cabinet, under Zivlar Pasha, these advice add, has not resigned, nor has Adly Yeghla definitely accepted the premiership. Not much news from Egypt has reached London in some time, but the position, therefore, is somewhat obscure, but for the present there is nothing to suggest important developments.

War On One Big Union

Winnipeg Mayor Says Means Must Be Found to Dislodge Organization

Winnipeg.—Open to the public, One Big Union with a view to its ultimate extermination, was declared by Mayor R. H. Webb, of Winnipeg, in addressing the annual meeting of the Industrial Development board here.

The organization, which is regarded as the left wing of the labor movement, has its headquarters in Winnipeg.

Mayor Webb declared some means must be found to dislodge the O.B.U. which, he charged, was "undermining progress and development in the city." He criticized the federal authorities for granting the street railwaymen's unit of the organization a board of conciliation in an effort to settle the present deadlock between the Winnipeg Electric Railway and the men. The traction company has refused to recognize the union or negotiate a new agreement with their employees who are affiliated with the O.B.U.

To Raise New Loan

Domestic Loan Not Exceeding \$150,000,000 To Be Sought

Ottawa.—Authorization to raise a domestic loan not exceeding \$150,000,000 will be sought from parliament by Hon. J. A. R. Macdonald, minister of finance. The loan for the purpose of paying, redeeming or otherwise retiring the whole or any part of loans contracted by Canada and for public works and general purposes.

The Dominion Government has \$35,000,000 in two-year notes maturing October 1, and \$40,000,000 in two-year notes maturing November 15.

Report Foreign Priests

San Salvador, Republic of Salvador.—The Guatemalan Government has deported a number of priests charged with interfering in politics. The government also has issued a decree forbidding Jesuit priests from entering the country and prohibiting the functioning of foreign priests without special government permits.

Francis-Syrian Treaty

Paris.—A Havas dispatch from Constantinople says that the French ambassador, Albert Sarraute, and Tewfik Rashed Bey, foreign minister at Ankara, have signed a Franco-Syrian treaty. The treaty was negotiated several weeks ago by Henry R. Jourvet, French high commissioner for Syria.

Arrest U. S. Diplomat

Honolulu.—A special dispatch from Tokyo to Houchi Shiba, Japanese newspaper, says that O. K. White, a member of the United States embassy staff in the Japanese capital, was arrested while taking photographs in the Japanese naval base.

May Be Exiled to Corsica

Paris.—The Petit Parisien quotes a Rabat (Morocco) newspaper as saying that Abdel-Krim, the surrendered Rifian chief, will probably be exiled to Corsica.

W. N. U. 1672

Protest From Livestock Board

Open Letter Is Sent To The Minister of Agriculture

Winnipeg.—The board of directors of the Winnipeg Livestock Exchange has sent an open letter to Hon. W. R. Motherwell, minister of agriculture, in protest to what is termed in the letter "propaganda" published to the effect that the livestock exchanges regulations on the western markets are responsible for the marketing of co-operative shipments of livestock and the pooling of livestock.

The letter states that the exchange had wired the minister asking if he had been correctly quoted in recent interviews and that the following reply had been received from Mr. Motherwell:

"I have no formal interview to make or report to, but did draw to attention of press men that co-operative marketing in west had now become so general and popular that at present livestock regulations did not permit farmers pooling their livestock sales legitimately, then it might, and possibly would, be desirable to change such regulations."

The letter says that practically all exchanges in the west operate in the same regulations; that if there are any regulations prohibiting the practices named, that the exchange would assist in removing them "for good business reasons." In regard to the regulations, it is stated that the regulations would affect all the commission firms operating on the Winnipeg exchange.

Death Toll Has Reached A Total Of 2,800

Rangoon, Burma.—The death toll on the coast of Burma has reached a total of 2,800, according to a report submitted to the commissioner of the district of Arakan.

It is feared that the total number of deaths may reach almost 3,000 in the affected regions.

Huge property loss has been suffered through the area which was swept by the plague, it is said to be totally inadequate to meet the present situation.

Residents fled hurriedly from their homes in a desperate bid once again to escape the pursuing death, and they left their personal effects behind.

Relief work is progressing as well as the present death toll is said to be inadequate to meet the present situation.

Canadian Envoy To U. S.

Appointment Is To Be Made Says Senator Dandurand

Ottawa.—Senator Dandurand, government leader, replying to a question in the senate, said the government intended to appoint a minister plenipotentiary to Washington.

As to the appointment, he said he had been in the matter under consideration.

Sensor Dandurand said there had been no correspondence between the governments in reference to the appointment of an American ambassador to Ottawa.

Will Not Receive Degree

Cambridge University Withdrews Proposal to Honor Ramsay MacDonald

London.—Cambridge University has withdrawn its proposal to bestow the honorary degree of Doctor of Laws upon the former premier Ramsay MacDonald, parliamentary chief of the Labor party.

Notification was given that there would be some opposition in the senate of the university, and Mr. MacDonald indicated that he had declined its offer to receive a degree by majority vote.

Foot and Mouth Disease

London.—The foot and mouth disease of cattle is brought into England in the carcasses of pigs imported from the continent by British factories which cure the meat of the pigs. Sir, Hon. Walter Guinness, minister of agriculture and fisheries, made this statement in an address to the council of agriculture of Middlesex county at the Guildhall.

Missing Evangelist

Los Angeles.—The Los Angeles Times says it has learned through confidential sources that the evangelist, who was reported to have been killed by two men who declare they will return Mr. McPherson for the \$25,000 reward recently offered by Mrs. Kennedy.

Says China Resents

Foreign Interference

Geneva Representative Becomes Excited At Meeting of Opium Commission

Geneva.—China is sick to death over foreign interference in her domestic affairs.

Mr. Chu, the Chinese minister to Geneva, said this declaration during a tempestuous session of the permanent opium commission in a violent altercation with the British delegate, Sir Malcolm Colville.

Sir Malcolm had criticized the importation of morphine into China. He talked of the readiness of the Chinese to "make war on Great Britain."

"If you can find a Chinese who is not anti-foreign and not anti-British, I'll say he is not a good Chinese," exclaimed the minister.

The word battle became so heated that M. Bourgeois, president of the commission, was obliged to adjourn the session.

Higher Favorable

Trade Balance

Canada's Excess of Exports Over Imports Greatly Increased

Ottawa.—Canada's favorable balance of trade (the excess of domestic exports over imports) was \$1,060,000,000 in the 12 months ending April 30.

This is, nearly \$100,000,000 more than in the 12 months ending April 30, 1925.

In the 12 months ending April, 1925, domestic exports were \$1,215,000,000; imports \$256,000,000. The excess of exports over imports was \$759,000,000. In the 12 months ending April, 1925, domestic exports were \$1,060,000,000; imports \$175,000,000. Excess of exports over imports \$235,000,000.

HAS CONFIDENCE THAT MERCHANT MARINE WILL PAY

Ottawa.—"I am very far from regarding the Canadian government as a Merchant Marine as it is sometimes lightly and ridiculously called a white elephant," Sir Henry Thornton said in reply to a question before the railway committee of the house.

He was hopeful that with caution in management, diligence, economy and regard to public business the merchant marine would be able in future years to show a substantial profit on its operation, although it would not, at least for many years to come, be able to return interest on the amount of the ship loans.

For the first five months of this year," Sir Henry said, "the C.G.M.M. had an operating profit of \$62,000. The first five months of the preceding period that it had been able to show a substantial profit."

He added that this is a pleasant indication not only for the government's policy, but also showed an improvement in international trade which was beginning to get back into its stride.

"With regard to the Canada-British West India trade," said Sir Henry, "it does offer considerable promise. We will be in a favorable position by getting in early. The next ten years will be profitable to whoever goes into it and to Canada."

Will Not Be Candidate

Edmonton.—Ex-premier Herbert Greenfield has announced that he will not be a candidate in the Alberta general election June 28. He expects to take an active part in the campaign, addressing meetings on behalf of the U.F.A. candidates.

Three Life Savers On World Cruise

Photography ranks among the most popular of the many pastimes on board ships making cruises around the world. Under sunny skies and perfect weather conditions, not many can resist the lure of the little black box which magically reproduces striking likenesses of places and people.

Soon after breakfast an army of amateur photographers appear on the scene prepared to "shoot" anything in sight, providing the interest is good enough to furnish them with memories of pleasant travelling days so unclouded and sharply as pictures.

Above, from left to right are Miss Dorothy and Miss Mary Hager, of Vancouver, B.C., snapped on the deck of the Canadian Pacific liner Empress of Scotland, while making the round World Cruise this year. The Misses Hager with the round disk make a trio of life savers.

ALBERTA SCHOOL QUESTION GOES TO SUPREME COURT

Ottawa.—Hon. Ernest Lapointe, minister of justice, announced in the house that the department of Justice had in hand references of the Alberta school question to the Supreme Court of Canada.

"I believe," said Mr. Lapointe, "that the issue is fair to all parties and I earnestly hope that this well settled question will in this way be decided definitely and removed forever from the field of controversy."

Mr. Lapointe said the amendment made by the legislature of Alberta, "without our consent" to the natural resources bill suggested that the laws of the province might differ from, or be in conflict with Section 17 of the Alberta act. Other countries, the amendment had been useless and futile. The Alberta Act had stood as the constitution of the province for 21 years. "I do not directly or indirectly, even in a tact manner, acknowledge that its validity might be subject to question."

However, the amendment made by the legislature of Alberta, "without our consent" to the natural resources bill suggested that the laws of the province might differ from, or be in conflict with Section 17 of the Alberta act. Many Injured In Gas Main Explosion

Weak Seam Given As Cause Of Accident In Los Angeles

Los Angeles, Calif.—Eight persons were injured, some seriously, when a sixteen-inch gas main exploded in the middle east side of the city.

The explosion, which occurred at a crowded station, the blast ripped a gaping hole in the pavement 300 feet long and 12 feet wide, and piled the remains of three buildings into a dusty, smoldering heap.

Six pleasure cars and three trucks, which were passing, were lifted high into the air and dropped, demolished and burning, into the great hole.

Damage in excess of \$200,000 was estimated by police. It is believed, however, that losses will exceed that figure.

A crack seam in the big main was given as the cause of the blast.

Cure For Leprosy

New Treatment Devised Meets With Great Success

Berlin.—A new treatment for leprosy has been devised, and the results have been highly successful. The treatment is based on the use of the University of Dorpat, Estonia, who in an article in the German Dermatological Journal, announced that after many years of experimentation, he had succeeded in lifting the leprosy germ by means of freezing.

Carbolic acid "snow" was applied to diseased tissue with the results that in patients treated, severe, already have been discharged as wholly incurable to patients, the article said.

Will Not Be Candidate

Edmonton.—Ex-premier Herbert Greenfield has announced that he will not be a candidate in the Alberta general election June 28. He expects to take an active part in the campaign, addressing meetings on behalf of the U.F.A. candidates.

No Action On Cattle Tariff

U. S. Legislation Not Possible Before Next Congress Meets

Washington.—Talk here in reference to the cattle tariff, growing out of Hon. W. R. Motherwell's statement to the House of Commons at Ottawa, is that there is no likelihood of any change in the present situation in the near future. It is pointed out that legislation is possible before the next congress, which will be elected next November, but will not meet in regular session for a year and half.

So far as the flexible tariff is concerned officials of the tariff commission point out there is nothing formal before them on cattle rates. While there has been agitation by some livestock interests on this side to let down the bars as to freer cattle other livestock interests are fighting the proposition.

With a congressional campaign on and with the agricultural situation in the middle west, north-west and south unsatisfactory there is little or no prospect, it is felt here, for opening up the cattle tariff question.

Will Soon Step Aside In Favor of Pilsudski Say Politicians

Warsaw.—"Pilsudski is stepping aside," say the politicians. "We will have a new president in the person of Ignaz Moscicki—formerly known as a rebel's son, a world famous inventor, and once a fugitive from his country—has reached a climax in his election to the presidency of Poland, in which office he will fill the shoes of Jozef Pilsudski's successor."

Warsaw received news of his election with a calm that was almost indifferent. Moscicki will be president for five years.

The capital—though to shoulder the blame for any mistakes of the government, he will not step aside when the constitution of Poland has been re-shaped to suit the dictator, and Pilsudski will take over the reins of power with the power which is really will be his all along.

Wembley Will Be Sold At Auction

No Private Tenders Have Been Received By Liquidators

London.—Wembley is to be sold. The liquidators, after vainly endeavoring to get a bid for the great exhibition grounds and buildings by private tender, have decided to put it up at public auction. The site covers about 325 acres, and the sale will include the Palace of Electricity, the Palace of Industry; as well as the Stadium, which will accommodate 100,000 people. Several of the Dominion pavilions will also be included in the sale.

Attempt To Criticize King George Quashed

Liberties Told By Speaker It Would Not Be Allowed

London.—An address of thanks to King George for his proclamation continuing the state of emergency because of the coal strike was carried in the House of Commons, 249 to 109.

An attempt to criticize the King by the Laborite, now Sir Clydesdale, G. Buchanan, was quickly quashed. The speaker told the Laborites they could not bring the sovereign's name into the discussion because what he had done was done on the advice of his ministers.

Thursday, July 1, 1926

Dr. MacCharles, returned on Monday, from Vancouver.
J. Farquharson, ferry inspector, was in town, Monday.

Both rivers are now very high.

Considerable static in the air interfered much with obtaining election results over the radio on Monday night.

Geo. Durk, left on Monday for work in the Cabri district.

E. Schwenner, of Pivot, was admitted to the hospital on June 23.

P. Sweeney, of Medicine Hat, was admitted to the hospital on June 24.

Master Harold Haynes was admitted to the hospital on June 27.

Mrs. P. Schneider, of Brindley, was admitted to the hospital on June 23.

Mrs. A. J. Cogroove, of Social Plains, was admitted to the hospital, on June 28.

Mrs. Tarr, sr., is the guest here of her daughter-in-law, Mrs. Tarr of the telephone central.

Two cent postage came into effect today.

Vic Saunders is on the sick list.

Beautyland is glad to report a very fine attendance at the special children's service last Sunday. The congregation, including children numbered nearly 70. Why not again?

Miss Glover and Miss Monday, Mrs. N. D. Storey, Mrs. M. A. Blodgett and Norris Storey, motored to Calgary, today.

Mrs. Rihridge and daughter, Mable and Laura, left for Calgary, this morning.

Rev. N. W. Whitmore, left on Tuesday's train for Jenner in connection with the work of the United Church.

Mrs. Cleland, and two children, of Eston, Sask., were visiting the former's sister, Mrs. W. R. Brodie.

R. M. Mantario-cent.

O.N.R. to build a subway under the railway crossing on road. East of Sec. 23-26-28 W3, and to close the roadway on the road allowance, making a diversion through SW. 26-28-29 W 3, in place of it, the O.N.R. to be at the expense of the construction of the subway and the surveying and the Municipality to furnish the land, be approved.

That the Municipality apply to the Dept. of Highways to appropriate the necessary right-of-way as per plans to be prepared by the C.N.R. surveyors and to guarantee all claims for compensation and damages. That the plans submitted be approved.

Walker—That lands advised by the Registrar as having been illegally sold for taxes on account of including arrears levied before the patent was issued, be redeemed and restored to the poll, and the necessary compensation be paid to the holders of the certificates.

Walker—That the offer of Messrs. Oser, Haumond and Nanton Ltd., to allow the compensation for right-of-way taken from R. 35, 34-27-28 W 3 to be applied on current taxes be accepted.

Austrum—That the quarterly report of the Kootenai Union Hospital be accepted and filed.

Austrum—That the application of the Kootenai Union Hospital, for a further expenditure of \$1050 to complete the plumbing be approved. That the R.M. 209 to be responsible for \$30.36 of the amount.

Austrum—That whereas the assessment roll of the R.M. No. 202 as at December 31st, 1925, shows uncorrected taxes in arrears to the amount of \$49418.38 and of this amount \$16350.07 is in respect of lands which have been left by the occupants who have removed elsewhere, in a good many cases without filing abandonment papers;

And whereas those occupants who are not proving up their lands are making no attempt to pay taxes on same, and it has been considered necessary by the Municipal auditors to set up a reserve of \$8000 to provide for the probable cancellation of a large proportion of these arrears;

And whereas the lands in question where the occupants still remain are being farmed, the duties have been completed and there seems to be a general understanding that if a whole settlement continues to evade paying their holdings and the Dominion Government nor the Municipality can force them to do either.

And whereas the condition of things is working a great hardship on those settlers who have proved up their lands or have purchased land, and who are by reason of the Arrears of Taxes Act (see Katchewann) compelled to pay their taxes or lose their holdings, in that from 30 to 75 per cent heavier taxes have to be levied than would be the case if 100 per cent of the lands in the Municipality were paying taxes.

And whereas it also very considerably raises the cost of maintaining the schools to the remaining settlers;

And whereas there is at the present time a demand for loaned lands, if such were available for entry;

That this Council of R. M. Mantario, No. 202, respectfully submit to the Dominion Government, a request that all lands on which the duties have been completed and the time for proving up has elapsed be checked up, and that the occupants be required to prove up the said lands or otherwise that the holdings be cancelled and the lands be thrown open for re-entry—carried unanimously.

Edwards—That the application of P. Winter, for a lease on road allowance between SW. 27 and NW. 22-27-28 W3, and between Rte area of SE. 28 and NE. 21-27-28 W3 be granted.

Accounts examined by finance committee and passed on motion of C. King.

J. R. Scott, rep. bridge, Div. V, 7.00; H. Geddes, maintenance roads, Div. 1, 8.00; Day She, 4, roads, Div. II, maintenance, 115.00; Ditt, Div. 1, maintenance, 0.00; Ditt, Div. 1, capital, 166.00; J. R. Bone, roads, Div. V, capital, 71.00; Empress Lbr. Yds., culture, Div. V, capital, 43.00; G. Lounsbury, ditto, 2.00; Day She, Div. V, capital, 85.00; Maintenance, 44.00; 00.00; Stationery Supplies Committee, 8.70; Wm. Mann, News, 2.25; Empress Express, 7.75; Mowat, McFarlane and Co., audit, 144.78; Sec. Treas., postage etc., 26.78; Hospital—Anash, 75.00; St. Paul's, Saskatoon, 67.50; Kitchener (Union Hospital Order No. 1), 123.00; Estonia, 21.00; Empress, 139.00; Richardson Road Machinery Co., repairs to grader, 12.00; J. R. Underwood, surveying, 183.00; Asak Hardware, repairs machinery, 1.18; Total, 3181.66.

Betty—That the rate of wages for 1926 be: Man, \$4 per day; Man and two-horse team, 6.00 a day; Man and four horses, 8.00 a day; Man and six horses, 10.00 a day; Foreman and grader, 4.50 per day; Road dragging, 55 cents per loaded mile.

Rivers—That neither tender submitted for engine to draw grader be accepted, but that each Councilor be authorized to make his own arrangements for an engine for the grading in his own division. The lowest tender submitted was from outside the Municipality and it was considered advisable to retain the work for

SWEEPING REDUCTIONS IN FORD PRICES

Coincident with the reduction in the price of Ford cars and trucks in the United States, the Ford Motor Company of Canada, Limited announces the following prices, effective June 19.

In addition to these drastic reductions, all models quoted below, except the truck, are now standard equipped with self-starter and balloon tires.

Model	New Price	Savings
Runabout - - -	\$460	\$50
Touring Car - - -	480	50
Sport Roadster - - -	555	40
Coupe - - -	610	50
Tudor - - -	625	60
Fordor - - -	690	55
Chassis - - -	370	40
Light Delivery - - -	470	60
Light Delivery Van - - -	525	50
Truck, non-starter - - -	395	50
Truck, self-starter - - -	460	65

(Above prices at factory. Freight to point of delivery and sales tax extra)

These reductions are made absolutely without sacrifice to the traditional quality and durability of Ford products. They open the way to car ownership to thousands of Canadians who have not previously been afforded the comfort and economy of personal transportation.

See your local authorized Ford dealer today. He will gladly demonstrate the model you are interested in and explain convenient terms of purchase.
